## EMPLOYMENT EXPERIENCE

---

### iProgrammer Solutions Pvt Ltd (Client: Ultratech) - Software Engineer

Pune, India

UTEC by Ultratech — Reactjs, NodeJs, Expressjs, MongoDB, MySQL, AWS Serverless, Lambda, SQS, SNS Nov. 2021 – Present

- This enterprise project provides a comprehensive platform for customers to get all the necessary solutions for building a house. The platform supports various requests such as 2D designs, 3D elevations, VR requests, and more, streamlining the home-building process for individual home builders.
- **Android/iOS Apps (Buyer/Seller)**: Developed two mobile applications (one for individual home builders and one for partners) to facilitate the submission and management of building requests.
- **Admin Portal**: Designed and implemented an admin portal to manage all configurations related to the project.
- **OneTech Portal**: Created a specialized portal for administrative users, enabling efficient task serving, target setting, and partner verification.
- **Contact Center Panel**: Designed and developed a contact center panel to manage customer calls effectively.
- **OneTech Lite**: Developed an offline Flutter app to ensure functionality without internet access, with automatic syncing to the cloud once connected.
